

unimarket

Oracle

Power up your procurement process.

Streamline and simplify procurement by integrating Oracle with Unimarket's best-in-class eProcurement solution.

The Oracle ERP plays a crucial role in your organization – controlling operations, financials, and possibly much more. But when it comes to delivering a cost-effective and streamlined procurement process, many organizations find that only a purpose-built procurement solution will do.

Unimarket offers a flexible and affordable eProcurement solution that integrates simply and easily with Oracle. Whether you just need an intuitive, user-friendly marketplace that makes it easy for people to find and buy what they need, or you want to modernize and automate the entire procurement process, Unimarket has the solution to fit.

So why do organizations from a broad range of sectors choose Unimarket?

Our cloud-based solution complements the functionality of Oracle perfectly, tightly integrating to modernize and automate procurement in your organization while ensuring your ERP remains the master system of record at all times.

We deliver integrations tailored to your organization's specific needs and ensure synchronicity with Oracle. We also onboard all of your suppliers directly into the Unimarket platform, removing the need for time-consuming, costly, one-to-one integrations and simplifying supplier management.

The result is an end-to-end procurement solution that's configurable to how your organization works, facilitates greater integration and automation with suppliers, and offers excellent value for money.

How does Unimarket get procurement done right for you?

Ease

Marketplace provides users with a familiar online shopping experience.

Automate everything, from requisition generation to approvals.

As a cloud-based solution, there's no software to install and updates are automatic.

Visibility & control

Know how much your users are spending, what they're buying, and from which suppliers.

Upfront requisition approval ensures purchases are authorized before spend is committed.

Forecast with reliable data on historical and committed spend.

Savings

Create buying power by directing spend to preferred suppliers.

Save time and money by cutting out paperwork and automating processes.

Onboard suppliers without the need for time-consuming, point-to-point integrations.

An easy partnership

Collaboration is at the heart of everything we do. That's why we're with you every step of the way, from assessment and planning to implementation and beyond. Rather than relying on third-party providers, we complete all integrations ourselves so you're working with the same skilled and experienced team from start to finish.

And because of our experience with Oracle, you can be confident of a fast and efficient integration that meets your organization's needs and doesn't place an unreasonable burden on your IT team.

Why Unimarket is the perfect procurement partner for Oracle

- Unimarket is a well-established and trusted partner of organizations using Oracle.
- From Marketplace to our full eProcurement+ solution, Unimarket fits your organization's needs.
- Unimarket provides complete control over your procurement process with features including:
 - An intuitive and simple shopping experience
 - Fully configurable approval workflows
 - Central control over all spend
 - Automated invoice matching

“We were very impressed with how we could bring all our ordering, payments and expense management processes into the one platform, bringing a new level of efficiency.”

Andrew Verberne, Purchasing Manager
at Murdoch Children's Research Institute.

unimarket.com | hello@unimarket.com

A flexible solution that works for you

Your organization has different needs, circumstances, and challenges than others. That's why we offer a flexible procurement solution that provides all the functionality you need, without unnecessary complexity and cost.

Marketplace

Our integrated catalog-driven marketplace lets you easily find and buy the things you need from your preferred suppliers at your negotiated prices.

A well-established network of suppliers means many of the suppliers you work with may be ready to connect already. For those that aren't, we'll work to onboard them on your behalf.

eProcurement

Building on Marketplace, our eProcurement solution adds the capability to manage your purchase orders, approvals, and requisition process.

Your users will love shopping made easy, while you will be able to realize the benefits of centralized buying, control, and visibility.

eProcurement+

Unimarket's most comprehensive solution manages your entire procurement process, from purchasing through to managing supplier invoices.

Automating accounts payable will help you make substantial savings on invoice processing costs and free up staff to focus on more strategic objectives.
